	Edge-Pro, The Ultimate Edger!:	
EP-300	Edge-Pro (Electric) The ultimate cart path edger! The Edge-Pro 300 mounts on most utility vehicles or sand trap rakes to edge a professional, manicured look on any formed concrete path or curbing in a fraction of the time it takes with traditional equipment. This universal design allows mounting on either side for ease of operation. The heavy duty 14" curved cutting disc follows the path of the curbing, installs quickly with only 4 bolts, then connects to the battery for power and you are ready to edge. One golf course operator can safely edge 18 holes in one day- just follow the path and the Edge-Pro delivers a perfect edge every time.	\$5,114.00

Applications:

- Toro Sand Pro
- Toro Workman
